

We're Better Together:

AssuriCare Services Guide

With our recent acquisition of AssuriCare, Wellcove now offers an exciting new suite of services and tools. Insurance carriers can use these services to make informed eligibility decisions and provides significant administrative efficiencies as invoices are delivered electronically in a standardized format for home and facility care claims. Our service also helps carriers auto-populate and adjudicate invoices, and identify potential fraud, waste, and abuse.

Electronic Visit Verification (EVV) Highlights

- Enhanced GPS tracking technology to provide real-time caregiver updates
- **Increased savings opportunities of 18-25%**
- Easy-to-use web portal provides claimants and authorized representatives a convenient way to keep track of care and services rendered
- Detailed activity reports designed to help carriers mitigate fraud, waste, and abuse

Facility Itemization and Verification

- A transparent invoicing process, following digitized standardization practices
- Proprietary algorithms to detect unusual claim data patterns and potential abuse
- Monthly service audits conducted to identify changes in care needs
- **Standardized processes that increase efficiencies by 50%**

Benefit Eligibility Assessment

- Protected collection, digitization, and storage of data following HIPAA standards
- Multitier clinical reviews processed by experienced health professionals to ensure complete, accurate, and actionable information
- **Scored assessments and assessors to ensure consistent and dependable performance**
- Secure online portal with 24/7 access to case referrals, notes, and assessments
